

# Access and benefit sharing (ABS)

**TRUE** OR **FALSE**

## True or false?

Companies working with  
plant-based raw material  
have legal obligations  
under the Nagoya Protocol.

## True or false?

Countries have the right to decide which type of activities are regulated under ABS laws and regulations.

## True or false?

To comply with ABS rules, companies must secure prior informed consent from indigenous communities.

## True or false?

Prior informed consent refers to the right of countries to authorize research or development conducted on the composition of their biological resources.

## True or false?

According to the Nagoya Protocol, benefit sharing is established by negotiation. However, it must be at least 5% of net turnover of the final product.

## True or false?

By granting export permits, national authorities also confirm compliance with any applicable legal requirements on ABS.

## True or false?

If they have not conducted R&D, manufacturers of finished pharmaceutical products are not subject to due diligence requirements in the European Union.

## True or false?

European companies that are utilizing genetic resources comply with due diligence by requiring supplier declarations of compliance with the Nagoya Protocol.

Thank you.
