Transition Practices Incentive
The endangered species is us.

About 100 animal and plant species are dying out every day. If we don’t change the situation, one day we will be the ones endangered of extinction. At the UN Conference on Biological Diversitry taking place from 19th to 30th May 2000 in Bonn, 5000 participants from all over the world will be looking for ways to conserve biodiversity. Find out how you can help at www.natuurbank.de.
