Climate Change Adapted Management in Protected Areas
Practical Experiences from Central and Eastern Europe

Sven Rannow

Climate Change and Nature Conservation in Europe
25–27 June 2013, Bonn, Germany
Impacts of Sea Level Rise
Secovlje Saline Nature Park, Slovenia

(Ivajnšic & Kaligaric 2012)
Impacts of Extreme Events
Secovlje Saline Nature Park, Slovenia
Impacts of Autonomous Adaptation
Biebrza National Park, Poland
Gaps in Climate Change Communication
Souslik (*Spermophilus citellus*) in a Changing Climate
Balaton Uplands National Park, Hungary
Guidelines + Handbooks for Climate Impact Assessments + Adaptation Process
Ground-nesting Birds Action Plan
Sekovlje Soline Nature Park, Slovenia
Changes in Mowing Regime
Biebrza National Park, Poland
Site-adapted forest conversion of coniferous forest
Biosphere Reserve Vessertal-Thuringian Forest, Germany

(Frischbier et al., in prep.)
Management Perspective: What is Affected by Climate Change?
Management Perspective: What is Needed for Climate Adaptation?
Research for adaptation needs to

- consider the management perspective
- consider wider scope of impacts
- support site specific processes
- built capacity in protected areas
