Website:

2. Information according to Article 12 (2) BBNJ

In accordance with Article 12(2) of the BBNJ Agreement, the following information shall be notified to the Clearing House Mechanism 6 months, or as early as possible, prior to the collection in situ of marine genetic resources of areas beyond national jurisdiction.

The nature and objectives under which the collection is carried out, including, as appropriate, any programme(s) of which it forms part:

The subject matter of the research or, if known, the marine genetic resources to be targeted or collected, and the purposes for which such resources will be collected:

The geographical areas in which the collection is to be undertaken:

A summary of the method and means to be used for collection, including the name, tonnage, type and class of vessels, scientific equipment and/or study methods employed:

Information concerning any other contributions to proposed major programmes:

The expected date of first appearance and final departure of the research vessels, or deployment of the equipment and its removal, as appropriate:

Opportunities for scientists of all States, in particular those from developing States, to be involved in or associated with the project:

The extent to which it is considered that States that may need and request technical assistance, in particular developing States, should be able to participate or to be represented in the project:

A data management plan prepared according to open and responsible data governance, taking into account current international practice:
